<p><b>REPORT: IQAC Activity</b>  <b>Institute Level Experience Sharing Session on Awareness session on BodhiTree 22 January 2026</b></p>		

**Department: Dean Academic office**

**Academic Year: 2025-26**

**Date: 27/01/2026**

**Date & Time :** 22 January 2026 2 PM onwards

**Name of the Event: Awareness session on BodhiTree**

**Venue:** Language Lab 6504 LA

**Organized by:** Dean Academic Office

**Participants:** 40 Faculty members of the institute on BodhiTree Platform

**Name of The Resource Person:** Bhaskaran Raman, Professor, Dept of Computer Science and Engineering, Indian Institute of Technology.

**Objectives of the Session:**

- To familiarize faculty members with the features and capabilities of the BodhiTree LMS for blended learning.
- To demonstrate the use of the platform for curriculum delivery, assessment, and student engagement.
- To explore how BodhiTree can support self-paced learning, flipped classroom pedagogy, and continuous assessment.
- To understand the platform's role in improving student attendance, placement preparedness, and academic monitoring.

**Brief Description of the Event:**

A demonstration session on the BodhiTree Learning Management System, developed by IIT Bombay, was organized for selected faculty members at PCCoE. The session was conducted by Prof. Bhaskaran from IIT Bombay on 22 January 2026, who provided a comprehensive overview of the platform.

During the session, live demonstrations were carried out showcasing key features such as course creation, content delivery, assessment modules, attendance tracking, analytics dashboards, and

feedback mechanisms. The session also highlighted how BodhiTree can be effectively used to support blended learning, continuous evaluation, and placement-oriented practice tests.

Faculty members actively participated and explored the platform's potential for enhancing teaching-learning processes and academic quality in the autonomous structure.

### Outcomes of the Session:

- Faculty gained a clear understanding of BodhiTree LMS functionalities and applications.
- Identified opportunities to implement blended learning and flipped classroom strategies.
- Recognized the potential for automated assessment, attendance tracking, and data-driven academic monitoring.
